BADIR | Black Belt: Data Analyst Certification

All-inclusive business analytics, A/B testing skills, and predictive analytics skills for data analysts and analytics managers

Thank you for putting on this course. Being brand-new to coding and R, it was difficult for me personally, but your obvious mastery of the subject area and step-by-step BADIR methodology has given me hope that someday I can master it too.

Paul Spiering, Retail Marketing and Merchandising Analyst, TBC Corporation

INTENDED AUDIENCE: Analytics Managers and Data Analysts who want to be data and insights-driven

Are you a Data Analyst or a Data Scientist looking to deepen your data science skills and to exceed your KPIs using these skills? Are you ready to learn how to use advanced statistics and become future-ready? If so, the Data Analyst Certification can provide the necessary applied analytics, experimentation skills, and predictive analytics skills as well as the assistance you need to energize and drive growth in your organization.

Become analytics wizard

Learn complete business analytics, experimentation, and predictive analytics skills

Be the change

Become an organizational catalyst for data-driven decision-making skills

Do less, drive more impact

Learn how to deliver actionable models and insights that drive \$

Become an influencer

Be the go-to-person for analytics in your organization

CERTIFICATION CONTENT

01

Analytics Aptitude Assessment

Aryng's Analytics Aptitude Assessment is a free and easy way to find out if you have what it takes to leverage data to make decisions. After this, you'll receive immediate results with personalized training suggestions to round out your knowledge. Plus, there's no obligation. Price: FREE

02

Complete Hands-on Business Analytics training

The foundational analytics course uses MS Excel and covers the hypothesis-driven BADIR™ approach to solving business problems. The course includes the four most common business analytics methods: aggregate analysis, correlation analysis, trend analysis, and sizing/estimation.

03

Complete Hands-on A/B Testing training

This course is based on the process of designing and implementing successful experiments to optimize the product, marketing, and customer experience using the BEDIR™ framework. The course covers full factorial design and optimizations using business constraints, plus an overview of Taguchi and Fractional factorial.

04

Complete Hands-on Predictive Analytics training

Learn advanced statistical algorithms including linear regression, logistic regression, and decision tree. Get hands-on experience with the BADIR™ framework using open source tools like the statistical tool, R.

05

Individual Projects with live mentoring

Sessions are scheduled in the middle and end of the training. Aryng recommends you use these sessions to discuss a live project from your job where you need help practicing the skills learned from the training. Additional mentoring sessions may be purchased as desired.

06

Certification Exam

This certification exam consists of MCQs and programming questions. You will be required to score 70% or above to earn the coveted BADIR | Black Belt: Data Analyst Certification badge. If you score below 70% on your first attempt, you will be awarded one more attempt to achieve your goal.

WHY

BADIR is Aryng's proprietary Data-to-Decisions framework adopted by many of the fortune 500 companies for their data literacy and digital transformation initiatives.

BADIR?

01

BADIR provides guaranteed actionable results

02

BADIR marries data science with decision science

03

BADIR enables 10X + faster generation of insights

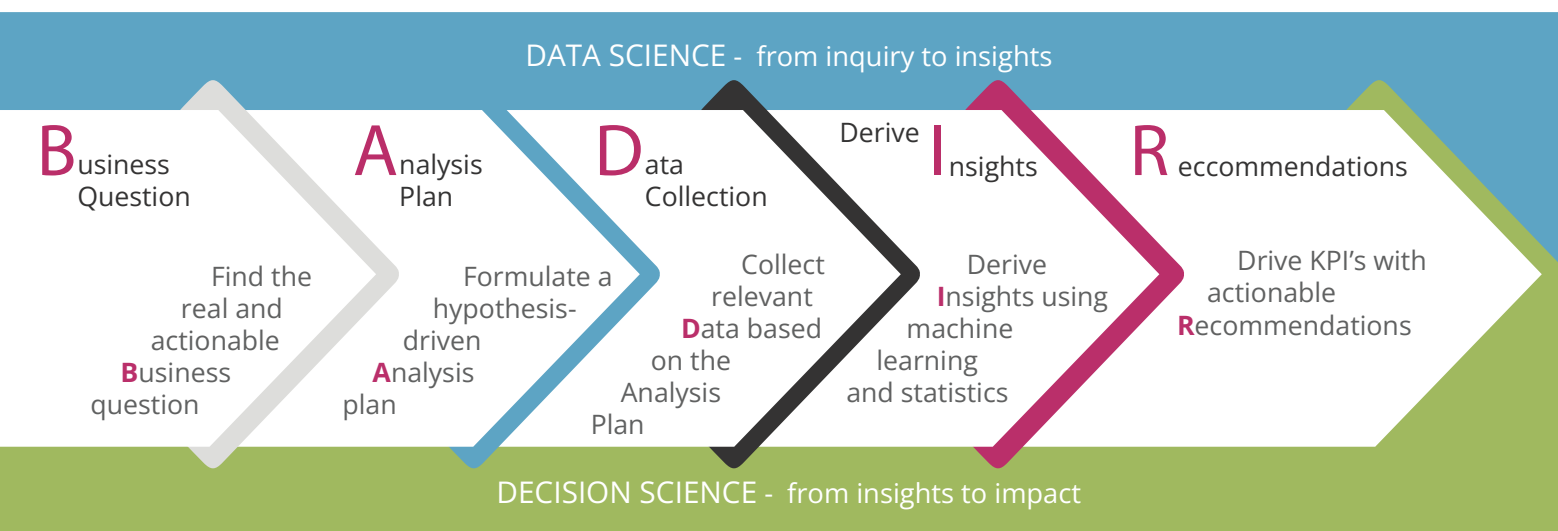

04

BADIR delivers 20X + impact by focusing on top drivers

05

BADIR is easy to learn and apply to solve problems

What is BADIR?

SAMPLE STUDENT PROJECTS mentored by Aryng

Improved **talent application rate** by **30%** while **reducing spend** by **18%**
